TREASURE OGUNDIRAN

East Lansing MI | ogundir2@msu.edu | (959) 200-0174

EDUCATION

Michigan State University, East Lansing MI   August 2019 — May 2023

- Bachelor of Science, Computer Science   GPA: 3.9
- Honors College, Deans List

WORK EXPERIENCE

Residence Education and Housing Services MSU, East Lansing, MI   September 2019 — Present
Student Labor Assistant

- Performed building maintenance tasks like cleaning classrooms and study lounges and keeping them organized
- Fulfilled dorm maintenance requests such as furniture repair using wrenches, screwdrivers, and other tools to ensure that residents were happy and comfortable
- Assisted new team members in getting used to the work environment.

PROJECTS

Portfolio Website   June 2021

- Designed and built a personal portfolio website for showcasing my skills and projects. The site was built with HTML, CSS and JavaScript and is hosted on GitHub pages with a google domain. The website can be reached at treasureogundiran.com. This project improved my UI/UX skills and helped me get familiar with web hosting, HTTPS, Search Engine Optimization, and Domain Name Systems.

User Search App   June 2021

- Designed and built a user search app that uses AXIOS to get users data from a JSON placeholder API and display the users and their details in a table. The app can be used to search for users by name or city and can also sort the table by name or city. This app was built in collaboration with IBM Accelerate 2021 Participants.

Chatbot   June 2021

- Collaborated on building a chatbot that gives answers to technical questions on networking, online conferencing, security, password reset, computer hardware problems, etc. I worked on the Natural Language Processing using a bag of words classifier and on creating a machine learning model for answering the users questions. This project was done with the MSU AI club in collaboration with the Wayne State University cyber defense team. This project helped me develop skills in Natural Language Processing and building Machine Learning models with python.

Interactive Resume   May 2021

- Designed and built an interactive resume with HTML and SASS. The resume can be downloaded as an HTML file and viewed offline.
